Objective

Continuous development makes me able to complete the required tasks accurately and reach the best results in the shortest possible time while maintaining accuracy and perfection.

Education

- **Cairo University | Cairo, Egypt**   **2019 - 2023**
  Faculty of Computer Science and Artificial Intelligence   Major: Artificial Intelligent
- **Taha Hamam Language School**   **2019**

Graduation Project

"Egypt Eye"   **Aug 2022 – July 2023**

- Developed an application providing comprehensive information on Egyptian landmarks, facilitating personalized city tours, with a focus on simplicity and accessibility.
- Our app features an advanced image-based retrieval system that allows users to instantly identify and learn about Egyptian landmarks by simply uploading a photo.
- Our app enabling the retrieval techniques, specifically content-based retrieval, to search and retrieve images based on their visual content.
- Designing our customed CNN VGG19 appears to be the most reliable and accurate model among the others architectures for CNN.

Experience

- **Freelancer Designer**   **2021 – Current**
  - Creating engaging social media designs and captivating motion graphics for advertising on various social media platforms.
  - Contributing to small embedded systems projects by designing graphical user interfaces (GUIs), animations, and other visual elements to enhance user experience and functionality.
- **Data Analyst as a part-time**   **Dec 2022 – May 2023**
  Nine Psychology
  - Worked as an Undergraduate Data Analyst, collaborated closely with a supervisor to analyze and visualize client data.
  - Utilized tools such as Excel, Trello and the Setmore application for analysis, managed sensitive client information with strict confidentiality.
  - Delivered actionable insights based on data analysis, cleaning and organizing client data to maintain accuracy and privacy, adhering to ethical guidelines and regulations.
  - Creating visually engaging charts, graphs, and reports to present findings to clinic stakeholders.
- **Motion Graphic Designer | Mood company**   **2020 – 2021**
- **Junior Designer | Acheiva Academy**   **2019 – 2021**

Internship

- **Data Analyst**   **Sep 2022 – Nov 2022**
  At Technocolabs Software Company (Remotely)
  - Gained valuable hands-on experience in Bondoar's data.
  - Enhanced skills in Statistical analysis, Data visualization and Data manipulation.
  - Refined communication and time management skills through remote work.
  - Demonstrated ability to work independently and efficiently in a distributed team environment.

Extracurricular Activities

- **Volunteering in Karma El khair Association**   **2024 – Current**
  - During my military service I was working as Graphic/Motion Designer and engaging in charity activities.
- **Microsoft Camp**   **2014**
  - This Camp is organized in collaboration with The Ministry of Education.
  - Learned Microsoft Office suite.
  - Acquired soft skills such as communication, teamwork, and problem-solving.

Courses

- Test Automation – (**Selenium – java**)   **Sep 2024**
- ISTQB – **Mahara Tech ITI**   **Apr 2024**
- Data Science – **IBM**   **Nov 2022**
- Data Analysis – **Udacity**   **Apr 2022**

Skills

Technical skills:

- Automation Test Selenium-java
- Software Testing Fundamentals ISTQB
- OOP, Algorithms, Data Structure
- Data Analysis

- Manual Test
- OOP, Algorithms, Data Structure
- RDBMS Management: MySQL, SQL Server

Personal Skills: Accountable - Punctual - Flexible - Diligent & Organized - Fast learner.

Language Skills: Arabic (Mother Tongue) – English (B1) - German (A2)

Software skills: Excel – Word – PowerPoint – Adobe (After effect – Premiere – Illustrator - Photoshop)

Interests

- CrossFit
- Snorkeling
- Cycling
- Travel
- Padel sport

Projects

Automation Testing Selenium-java   6[th]June 2024—15[th]Sep 2024

- Automation Testing Framework: Developed a robust test automation framework using Selenium WebDriver with Java, integrated with TestNG for test execution and Extent Reports for detailed test reporting.
- Modular Design with Page Object Model: Implemented the Page Object Model (POM) and PageFactory design patterns, enhancing code reusability and maintainability, allowing flexible test configuration via Maven profiles.
- Cross-Browser Testing: Configured and executed tests on multiple browsers such as Chrome, Edge, and Firefox, ensuring broad test coverage across different environments using Maven commands.
- Continuous Integration and Reporting: Set up automated test execution with Maven and generated detailed ExtentReports and Cucumber reports, ensuring thorough tracking of test results and smooth integration with CI/CD pipelines.

Guru99 Banking System (Manual Testing)   1[st]May 2024—13[th]May 2024

- Reviewed Software Requirements Specification (SRS), analyzed all functional/ technical requirements to ensure comprehensive understanding.
- Created detailed test cases thorough validation of system functionalities.
- Bug Reports for Documenting defects with detailed descriptions, reproduction steps, and severity levels.
- Regularly checked emails for updates and coordinated with the support team for any changes or issues.
